How do I add a Signature? If you have Adobe Acrobat or PDF Expert you can add your signature at the same time you fill out this form. Otherwise, complete this form and then select the "Submit completed form to ACM" button.   The completed form will appear in your email app ready to be despatched to ACM. In your email app select the on "V" symbol in the top right hand corner of the form and then click on "Markup" and then select "Sign" in the top tool bar to create your signature.   This is the Apple Mac solution other operating systems may offer a different process. You may already have your signature stored, if not, you should be able to make one via your trackpad.
